ALAUKIK TECHLABS LLP

Sector	:	Fintech
Contact	:	Mr. Prashantha KP
Designation	:	Founder
E-mail	:	prashanthkp3772@gmail.com
Address	:	H. No. 66, 4th Stage, Akshay Colony, Vidyanagar
Website	:	https://www.stockwatch.live

Profile:

StockWatch is an AI-powered market intelligence platform built in Hubballi by Alaukik Techlabs LLP. It helps retail investors research like institutions — AI-analysed market data and research tools across every listed company, for faster, better-informed investment decisions. It reads every stock-exchange disclosure the moment it is filed — 1.5 million+ filings processed across 12,600+ companies in India and the US — and publishes analysis, result verdicts and research reports within minutes, no human in the loop. LaxmiGPT, its agentic research assistant, answers investor questions with every claim cited to the source filing. Live on iOS, Android and web; 10,000+ installs, fully organic.

AMEY MANGESH KADLE

Sector	:	Information Technology
Contact	:	Mr. Amey Kadle
Designation	:	CEO
E-mail	:	amey@ajinkyatechnologies.in
Address	:	#429-B/1, 1st floor, Congress Road, Tilakwadi, Belagavi, Belagavi, Karnataka, 590006

DIMHANS aims to improve mental health outcomes through accessible, quality healthcare and contribute to the development of skilled professionals in mental health and neurosciences.

DIGIDEVALAYA PRIVATE LIMITED

Sector	:	Artificial Intelligence
Contact	:	Mr. Rameshrao Kulkarni
Designation	:	Rameshrao Kulkarni
E-mail	:	finance@digidevalaya.com
Address	:	DeshPande Startups sandbox, Gokul Rd, near to Airport, Hubballi, Karnataka 580030
Website	:	https://www.digidevalaya.ai

Profile:

DigiDevalaya was founded to bridge that distance. Not by replacing tradition, but by quietly carrying it forward — so a grandmother in Tirupati and her grandchild in Toronto can offer the same seva, at the same moment, to the same deity. We work alongside temple trustees, priests, and service partners to bring every sacred interaction online with the dignity it deserves. Technology stays humble. The sanctum remains the centre.

DOCKETRUN TECH PRIVATE LIMITED

Sector	:	Startup
Contact	:	Mr. Vinayak Kabadi
Designation	:	Additional Director
E-mail	:	vinayak@docketrun.com
Address	:	Ground floor, C-Lite building, KLE Technological University, Vidyanagar, Hubballi, Karnataka – 580031
Website	:	https://docketrun.com/

Profile:

DocketRun Tech Private Limited is an Industrial AI and automation company building closed-loop intelligence systems for modern factories. Our platform combines AI vision, IoT, sensors, edge computing, and PLC/L1 integration to monitor safety, security, process compliance, quality, and asset health in real time. Unlike passive analytics, DocketRun enables immediate shop-floor action through voice alerts, hooters, relays, dashboards, and control-system integration. With 160+ projects, 30+ deployed use cases, and deployments across 12+ industrial plants, we help enterprises reduce risk, downtime, and operational inefficiencies.

Our core expertise lies in designing and developing next-generation vehicle systems, components, and integrated mobility solutions. We specialize in engineering and Mobility Solutions, hydrogen storage system, hybrid, electric vehicles (EVs and HEVs), utility vehicles, Marine ROV's, safety Devices in Bus & Drones to ensuring cutting-edge performance and eco-friendly operations.

GRIDFLOW TECHNOLOGIES PVT. LTD.

Sector	:	Startup
Contact	:	Dr. Umesh Rudrapatna
Designation	:	Umesh Rudrapatna
E-mail	:	umesh.r@gridflow.in
Address	:	S2, Desphande Startups Gokul Road, Gokula
Website	:	https://www.gridflow.in

Profile:

Gridflow is a smart and sustainable transportation infrastructure startup working on technologies beyond today's EV revolution. Our patented technology can deliver connected, autonomous, shared and electric (CASE) mobility for both people and goods movement today, by bypassing the challenges faced by road-based self-driving vehicles. Gridflow enables cities, industrial estates and other large campuses to transition to smart and sustainable mobility at a very low cost. To achieve this, we leverage the latest developments in Robotics, IoT and AI to build an "internet-of-transportation" infrastructure that moves people and goods very much like how the internet moves data.

IIIT DHARWAD RESEARCH PARK

KEEHOO PRIVATE LIMITED

Sector	:	Artificial Intelligence
Contact	:	Mrs. Sapana Jairao Saradesai
Designation	:	Sapna Sardesai
E-mail	:	sapna.sardesai@keehoo.ai
Address	:	1ST FLOOR, DESHPANDE FOUNDATION FOR SNADBOXSTARTUP, 1ST FLOOR, GOKUL ROAD, DESHPANDE FOUNDATION FOR SANDBOXSTARTUP, Opp DESHPANDE FOUNDATION FOR SNADBOXSTARTUP, Hubballi, Dharwad, Karnataka, 580030
Website	:	https://www.keehoo.ai

Profile:

Keehoo.ai was born from a simple observation: while AI has become incredibly powerful, most enterprises still struggle to turn it into real business value. We saw organizations investing in AI tools, yet employees continued to spend countless hours on repetitive tasks, fragmented workflows, and disconnected systems. Generic AI chatbots could answer questions but couldn't securely execute business processes or integrate with enterprise applications. We started Keehoo.ai to bridge this gap by building enterprise-grade AI agents that go beyond conversation - they understand business context, automate end-to-end workflows, and work seamlessly with existing enterprise systems.

KVB GREEN ENERGIES

Sector	:	Agritech
Contact	:	Mr. Ravikumar Chavadi
Designation	:	Founder and Director
E-mail	:	kvbgreenenergies@gmail.com
Address	:	Factory : R16,Belur Industrial Area, Dharwad - 580011 Office : RHK Building,BVB Campus (KLE Tech),Hubli,Karnataka.

Profile:

KVB Green Energies is a Cleantech and Agritech company developing innovative solutions in renewable energy, solar thermal technologies, solar tunnel dryers, smart agriculture, AI/ML, and microgreen cultivation. We address key challenges including energy dependency, food quality, water scarcity, soil degradation, and post-harvest losses. With two provisional patents for innovative technologies, we focus on developing practical, scalable and sustainable solutions that improve resource efficiency, farm productivity and food quality while contributing to a greener future.

LEADXCEL INDIA PRIVATE LIMITED

Sector	:	E-Commerce
Contact	:	Mr. Mallikarjun Kullolli
Designation	:	Mallikarjun Kullolli
E-mail	:	ceo@leadxcelindia.com
Address	:	C Block, #599/2 T.S. Nagar Hunchanhatti Road Macche, Belagavi - 590014
Website	:	https://www.leadxcelindia.com

Profile:

LeadXcel India - Sante is a marketplace that connects rural artisans directly with buyers, in India and beyond. Good craft shouldn't stay invisible just because someone doesn't have a smartphone habit, doesn't speak English, or has never listed a product online. Sante fixes that part. An artisan talks about what they make, in whatever language they're comfortable in, and that turns into a real listing. Cut out the middlemen, and the artisan keeps more of what matters: the story, the price, the relationship with the person buying their work. From a village workshop to a global buyer. That's the whole idea. Sante, by LeadXcel India. Every craft has a market. Every artisan has a voice.

NETSENSE CYBERSECURITY PRIVATE LIMITED

Sector	:	Cybersecurity
Contact	:	Mr. Hitesh Dharmdasani
Designation	:	Founder and CEO
E-mail	:	hitesh@netsense.in
Address	:	1708, Ramdev Galli
Website	:	https://netsense.in

Profile:

NetSense Cybersecurity is an Original Equipment Manufacturer (OEM) specializing in enterprise-grade network security, SD-WAN, and unified threat management solutions. Built from the ground up to address the complex scale and compliance demands of modern digital infrastructure, NetSense designs and develops the entire network security and connectivity stack in-house. By engineering the complete ecosystem. From edge hardware appliances to cloud-native management fabrics. NetSense delivers resilient, end-to-end protection and seamless network orchestration while proudly operating as a "Make in India" enterprise.

Profile:

SuggiVeer Innovations is an agritech and water-tech startup developing affordable, farmer-centric technologies to address critical challenges in agriculture, fodder and water security. Our flagship innovation, SuggiVeer-CCH (Complete Crop Harvester), is a compact mechanized harvesting solution designed to improve productivity, reduce harvesting costs and labour dependency, while enabling efficient collection and utilization of crop residue. Starting with maize and expanding to sorghum, millets and other crops, we aim to develop reliable, scalable technologies that create value from crop residues, strengthen farm sustainability and empower farmers across India.

YNOS - STATION S

Sector	:	Startup
Contact	:	Mr. PRADEEP KANNA RAVICHANDRAN
Designation	:	CHIEF OF STAFF
E-mail	:	pradeep@ynos.co.in
Address	:	Block D, IIT RESEARCH PARK, 3, 32 KANAGAM ROAD, CHENNAI, Chennai, Tamil Nadu, 600113
Website	:	ynos.in

Profile:

The YNOS Venture Platform is an IIT Madras incubated startup providing national data intelligence—investor matchmaking, startup benchmarking, valuation models, and grant discovery—while Station-S operates from Sri City, Andhra Pradesh, delivering localized incubation and physical execution tools. Station-S relies on three core studio ventures: ZdotApps (Zapps) builds mobile apps and UI/UX architecture; FACT-Ops handles tax filings, GST, legal setup, and corporate compliance; and The Creativ Grid (CreativeGrid) drives GTM strategy, AI tools, and video branding.By uniting YNOS data with Station-S execution, founders seamlessly build products, maintain compliance, and raise capital.
